

Technical drawing of a multi-layered cylindrical component. The drawing shows a cross-section with the following dimensions and labels:

- L**: Total length of the component.
- D**: Diameter of the central bore.
- 150 min (5.9 min)**: Dimension indicating a specific length or time value.
- ϕC min**: Minimum outer diameter of the component.
- ϕB min**: Minimum diameter of the central bore.
- 1, 2, 3, 4**: Circled numbers indicating different layers or sections of the component.
