XENON BEACONS

1/2, 1 & 2 WATT LP SERIES

FEATURES

- ★ Extra low profile
- ★ Completely weatherproof (IP 67)
- ★ High Efficiency
- ★ Low current consumption
- ★ Spike suppression network fitted
- ★ -20°C to +55°C
- ★ Optional conduit/wall mounting base
- ★ British Made

APPLICATIONS

These rugged, easy to fit, low profile beacons are particularly suitable for mounting on external bell/sounder boxes. They also find wide fire and industrial applications.

BEACON MOUNTING ACCESSORIES

FX1 MOUNTING BOX

The FX1 is suitable for use with L, LP & LT Series beacons. It is made of grey, high impact polystyrene. Mounting accessories and terminal block are included. The box is suitable for internal wall or ceiling surface mounting of beacons.

FX2 MOUNTING BASE

The FX2 is suitable for use with L, LP & LT Series beacons. The base is made of black ABS. It may be fitted to either a conduit box or wall. Accessories are included to enable the beacon to be bayonet fitted onto the base.

FX4 MOUNTING BRACKET

The FX4 is suitable for use with LT Series Beacons. The bracket is made of black ABS and enables these beacons to be mounted on a wall or panel.

MAXIMUM OVERALL DIMENSIONS 86mmWx33mmDx63mmL
