- D. Large cam lock, allows size adjustment, maintains electrical continuity even when open. 300 series stainless steel.
- E. Floating cam lock* allows wide opening for easy adjustment and secures material down against base plate when closed.
- F. 4mm snap stud machined from 300 series stainless steel. Fits to 4mm spring loaded medical type socket. Coil cord disengages from snap with .45Kg - 2.27Kg of perpendicular force. Durable, providing long life well beyond that of sheet metal snaps.
- G. Knit elastic band material of light blue fiber; 22mm wide and 2.5mm thick. 50 strands of textured polyester, 36 strands of lycra spandex and 14 strands of silver plated Nylon 6 yarn. Outer surface of light blue fibers act as an insulator.
- H. The conductive silver plated Nylon 6 (see G) represents 13.5% of the material by weight. The 14 strands of conductive Nylon are randomly knit on the inner surface of the material and are electrically isolated from the outer surface (grey side).
- I. Underwriters Laboratory listing 90P1C.

Designed to satisfy wrist strap requirements of IEC 61340-5.

Jewel® Lifetime Limited Warranty

Charleswater expressly warrants that for a period of 1 year from the date of purchase, Charleswater Jewel® Wrist Straps and Coil Cords will be free of defects in material (parts) and workmanship (labor). In addition, normal use will not cause Coil Cord resistor strain relief connection or Wrist Band 4 mm snap stud to wear sufficiently to open path-to-ground circuit. Within the lifetime warranty period, a credit for purchase of replacement Charleswater Jewel® products, or, at Charleswater's option, the Charleswater Jewel® product will be repaired or replaced free of charge. If product credit is issued, the amount will be calculated based upon the original invoice purchase price.
