THOMAS RESEARCH PRODUCTS PRODUCT OFFERING

Thomas Research Products is proud to present our line of **Black Magic** Thermally Advantaged and Long-Life LED Drivers. Our LED drivers represent the latest technology available and provide the following features:

- Single output with constant-current or constant-voltage mode
- UL1310, Class 2 compliant or UL8540 as appropriate
- Suitable for damp or dry locations; IP66 or IP67
- Designed for outdoor or indoor applications
- Compact, lightweight with UV-rated plastic or aluminum cases
- Output over-voltage protection, output over-current protection and output short-circuit protection
- Active Power Factor Correction

CORPORATE HISTORY

Since its inception in 1997, Thomas Research Products has been an OEM supplier of electronic control devices for HID, fluorescent, and incandescent light sources.

Today, Thomas Research Products is an industry-leading supplier of LED drivers, with a comprehensive range of long-life constant-current, constant-voltage and dimmable drivers. The company's goal is to be the supplier of the best available LED drivers. Every design is optimized for quality and longevity. We are the only manufacturer of long-life LED Drivers.

Thomas Research Products has taken great pride in customer problem solving, analyzing needs, and producing unique products tailored to meet customer requirements. We have the ability to quickly design and deliver custom LED Drivers for your specific requirements. Contact us for details.

Visit our website for detailed specification sheets.

LED DRIVER ESSENTIALS

CHOOSING A DRIVER

- Identify whether a constant-current or constant-voltage source is required to operate the LEDs in your application.
- Identify the maximum wattage load the driver will encounter in your application.
 - Choose a driver that is rated at or slightly higher than your maximum rated load.
 - Make sure the drivers output will operate within its specified range (voltage range for a constant-current driver / current range for a constant-voltage driver)
- Specify a dimming capable driver if dimming is required.
- Chose a driver manufacturer who:
 - Offers a 5-year driver warranty
 - Has operations in the US with sales and engineering support a phone call away
 - Can supply all your manufacturing locations worldwide

DESIGN NOTES

- Drivers MUST be loaded to a minimum of 50% of their rated maximum power output (wattage) to ensure proper operation
- Nearly all Drivers have Universal Input Voltage; 120 thru 277V
- All Drivers operate on either 50 or 60 Hz line-voltage frequency
- Outputs of 60W, 90W, and 100W Drivers can be factory-tuned for your specific application
- All Drivers are RoHS compliant
- All Drivers are IP66 or IP67 compliant
- Thomas Research Products offers a 5-year warranty on all LED Drivers

ENERGY STAR

Nearly all Thomas Research Products LED Drivers meet or exceed the ENERGY STAR Program Requirements for SSL Luminaires – Version 1.1:

- Power factor ≥ 0.90
- Minimum Operating Temperature -20°C or lower
- Operating Frequency ≥ 120 Hz
- Meets FCC CFR Part 15 Part A emission limits
- Complies with IEEE C.62.41-1991 transient protection requirements
- Class A sound rating
- 5-year warranty (exceeds Energy Star 3-year warranty requirement)

DIMMING NOTES

- Dimming drivers are designed to allow LEDs to be dimmed down to 10% light output.
- Dimming drivers designed to be operated on 0-10Vdc dimmers only. They are not compatible with line-voltage dimmers.
- Dimming drivers include a 10V source lead for use with potentiometer dimmers. Cap off yellow lead when using a 0-10V dimmer.

CUSTOM DRIVERS

Can't find a standard driver that meets the particular requirements of your application? Thomas Research Products can design a custom driver for your application. Some of our custom designs include:

- "Tuned" output drivers to meet requirements of your specific application. Outputs (constant-current or constant-voltage) of 60W, 90W, and 100W Drivers can be factory-tuned for your specific application.
- Multi-channel drivers. We can design high-wattage drivers with multiple output channels to keep groups of LEDs within a fixture operating independently of each other. This will ensure that a fixture continues to operate at a reduced light-output level in the unlikely event that an LED fails. Multi-channel drivers are also a good solution to avoid connecting multiple LED arrays in parallel, which could lead to "current hogging".

Contact our factory for details.

SURGE PROTECTORS AND TRANSFORMERS

Thomas Research Products surge protectors are designed to be used in conjunction with LED Drivers, electronic fluorescent ballasts and HID ballasts to provide an additional level of surge and transient protection in industrial and commercial applications.

BSP3 SERIES SURGE PROTECTOR

- The BSP3 Series are 3-leaded devices that protect Line-Ground, Line-Neutral, and Neutral-Ground in accordance with IEEE / ANSI C62.41.2 guidelines
- Surge current rating = 10,500 Amps using industry standard 8/20 uSec waveform
- High-temperature, flameproof plastic enclosure
- 85°C maximum surface temp rating
- Thermally Protected Transient Overvoltage Circuit
- UL Recognized Component for United States and Canada

BSP3 Series Wiring

Model Number	Clamping Voltage	Surge Rating 2mS
BSP3-120	150	120 Joules
BSP3-208/240	275	190 Joules
BSP3-277	320	273 Joules
BSP3-347	420	320 Joules
BSP3-480	550	360 Joules

SPECIALTY TRANSFORMERS

Thomas Research is proud to present our line of Specialty Transformers. These autotransformers are designed especially for lighting applications, typically used in conjunction with 277V T8 or T5 Electronic Fluorescent Ballasts or Electronic HID Ballasts in Industrial and Commercial applications.

Input Voltage	Output Voltage	VA Rating	Catalog Number
480 or 347	277	125	480-347-277-125VA
480 or 347	277	245	480-347-277-245VA
480 or 347	277	460	480-347-277-460VA

THOMAS RESEARCH PRODUCTS LIMITED WARRANTY

Thomas Research Products warrants to the Purchaser that its LED drivers and lighting transformers will be free from defects in material and workmanship and will be of the designated kind and quality for five years from the date of manufacture. All other electronic circuits will be free from defects in material and workmanship and will be of the designated kind and quality for two years from the date of manufacture.

This warranty is not applicable to any circuit not installed and operated in accordance with the current edition of National Electrical Code and Underwriters Laboratories, Inc. Standards for Safety.

If it appears within our circuit warranty period that any circuit does not meet the warranty specified above, the Purchaser must notify in writing by United States mail of its warranty claim and return the circuits promptly at Purchaser's expense to Thomas Research Products. Thomas Research Products shall thereupon at Thomas Research Products expense, make available a repaired or new replacement part.

NO IMPLIED STATUTORY WARRANTY OR IMPLIED STATUTORY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE SHALL APPLY BEYOND THE AFOREMENTIONED CIRCUIT WARRANTY PERIOD. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

The foregoing warranty is exclusive of all other statutory, written or oral warranties and no other warranties of any kind, statutory or otherwise, are given or herein expressed.

LIMITATIONS OF LIABILITY

UNDER NO CIRCUMSTANCES, WHETHER AS A RESULT OF BREACH OF CONTRACT, BREACH OF WARRANTY, TORT, STRICT LIABILITY OR OTHERWISE WILL THOMAS RESEARCH PRODUCTS BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR EXEMPLARY DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROPERTIES, LOSS OF USE OR DAMAGE TO ANY PROPERTY OR EQUIPMENT, COST OF CAPITAL, COST OF SUBSTITUTE PRODUCTS, FACILITIES OR SERVICES, DOWNTIME COSTS OR CLAIMS OF PURCHASER'S CUSTOMERS. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

THOMAS RESEARCH PRODUCTS LIABILITY ON ALL CLAIMS OF ANY KIND FOR ANY LOSS OR DAMAGE ARISING OUT OF, RESULTING FROM OR CONCERNING ANY ASPECT OF THIS AGREEMENT OR FROM THE PRODUCTS OR SERVICES FURNISHED HEREUNDER SHALL NOT EXCEED THE PRICE OF THE SPECIFIC PRODUCT WHICH GIVES RISE TO THE CLAIM, EXCEPT IN ACCORDANCE WITH THOMAS RESEARCH PRODUCTS TECHNICAL ENGINEERING SERVICE PROGRAM.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.
