

**Tinning flux**

Special flux for roller tinning machines (aqueous and neutral) colourless, water washable, deoxidises copper and prepares for tinning.

Tinning salts

Special salts for tinning machines. Dissolve oxides on the surface of soldering baths and protect the baths.

Alloy

High purity solder in bars or in pellets with alloy Sn63/Pb37

Other kinds of alloys, upon request

Protective gloves

Double temperature isolated gloves, mantle 150 mm

Masking tape

Special tape for protecting the connectors, sticky tape without silicone, length 33 meters.

Description	Packaging	Item Code
Tinning flux	per litre	BS 150
Tinning flux	10 litres	BS 151
Tining salts	Box of 1 Kg	BS 200
Solder in bar	per Kg	E42 205
Solder in pellets	per Kg	E42 206
Protective gloves	the pair	I42 102
