# GUARDLITE 9
PHILIPS PL* LAMP LUMINAIRE WITH PHOTOCELL FOR AUTOMATIC SWITCHING

Applied Security Design Limited's latest introduction in its range of security amenity bulkhead luminaires.

The Guardlite 9 is the first luminaire of its kind specifically designed to accomodate a photocell for automatic switching and a Philips energy saving PL9 lamp which is supplied.

BENEFITS

● Philips PL9 – 9W only lamp

● Similar light output to 60W G L S lamp

● Lamp life – 5000 hrs
Thus saving on maintenance and replacement lamps

● Running costs less than £3 per year compared to 60W GLS lamps which cost £14 per year

● Automatic photocell switching reduces installation and operating costs

● Luminaire switches on at dusk and off at dawn

● Universal mounting

● Vandal resistant poly-carbonate enclosure

● Anti vandal fixing screws

PHILIPS PL * LAMP LUMINAIRE WITH PHOTOCELL
