

3M™ Cable Joints

Low voltage BK Series jointing kits including armour continuity system

BK Jointing Kit Components

Each BK jointing kit comprises of:

- No. 47 Resin
- Polypropylene Mould
- Scotch 23 Rubber Self-Amalgamating Tape
- Plastic Gloves
- Constant Force Springs
- Copper Braid
- Comprehensive Instruction Sheet

Safer cable jointing

- Closed Mix System
- Conforms to BS7888 (HD623)

Faster and easier

- Self-amalgamating tape gives ease of handling when insulating connectors
- Excellent flow characteristics - eliminating any risk of air voids
- Short curing time
- Simple step-by-step user instructions

More reliable

- Tough, polyetherurethane power jointing resin - at least equal to the strength of the cable
- Transparent resin bag - ensures reliable mixing and installation
- Self-amalgamating tape provides high insulation value

3M Innovation

BK Jointing Kit specification

- 600/1000V
- Suitable for PVC, XLPE, and rubber insulated cables
- The BK Series is designed for low voltage armoured cable
- The BK Series joints meet the VDE 0278, HD623 Part 2 and BS7888 Part 2 specifications

BK Joint Kit Selection Chart
