

Battery Operated Portable

- Battery operated hand held miniature printers
- Epson 'PU' series of impact printer mechanisms, 24 and 40 column printing at various print speeds of up to 2.5 lps
- Dot addressable graphics, double width, double height printing.
- Integral re-chargeable batteries, mains adaptor/charger is available
- Communication via serial RS232C

Parameters set externally using 'line feed' and 'on-line' buttons, eliminating the need for DIP switches

Ideal for a wide range of portable as well as static applications
