

Tamper-Evident Safety Clip

Secure your connections on LF 3000 ranges

A solution that makes tampering obvious and warns that :
the application is sensitive and that disconnection could
endanger persons and goods

The clip must be broken by pliers to disconnect the tube,
limiting this operation to workers with a toolbox, and thus
reinforcing the warning about disconnection

Evidence of tampering is apparent after disconnection
but the clip maintains its safety function

Colour-coding enables fluid circuit identification
(4 colours)

> Conditions of use :

Temperature range :	Fluid Compatibility :	Materials :
from -20°C to +150°C	air, grease, cleaning agents	polyamide 6-6 reinforced with fiberglass

> Assembly of the Tamper-Evident Safety Clip

Assemble the clip
Connect the tube

Cut the clip with pliers
Remove the clip
Release the tube

> The ranges of push-in fittings compatible with the Tamper-Evident Safety Clip

LF 3000 instant fittings	LIQUIfit instant fittings	LF PVDF instant fittings

Parker Legris Connectic offers a comprehensive range of push-in fittings and tubes; please consult our general catalogue or visit www.legris.com or www.parkerconnectic.com
