

# BT7073

## ADDITIONAL WALL MOUNTING CLIPS INSTALLATION GUIDE & PARTS LIST

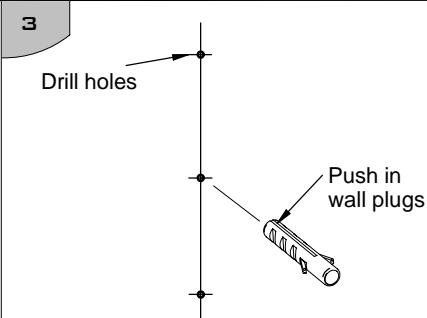

This Pack Contains 3 Mounting Clips

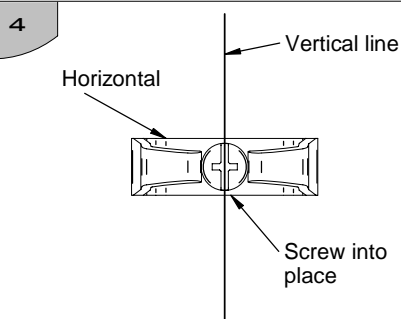

Draw a pencil line on the wall where you wish the centre of the cable manager to be. Use a long spirit level to ensure this line is vertical.

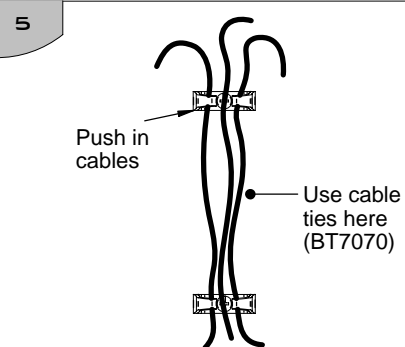

Mark across the line where you want to position the wall clips. There should be a wall clip 40mm from each end with the others equally spaced between them.

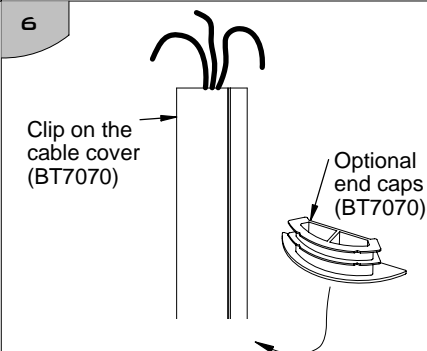

Where marked, drill a hole for each wall clip using a 6mm drill bit to a depth of 35mm. Insert a wall plug into each hole so that they are flush with the wall surface.

Screw each wall clip into place using a cross head screwdriver. Ensure they are central to the line and horizontal in orientation as shown.

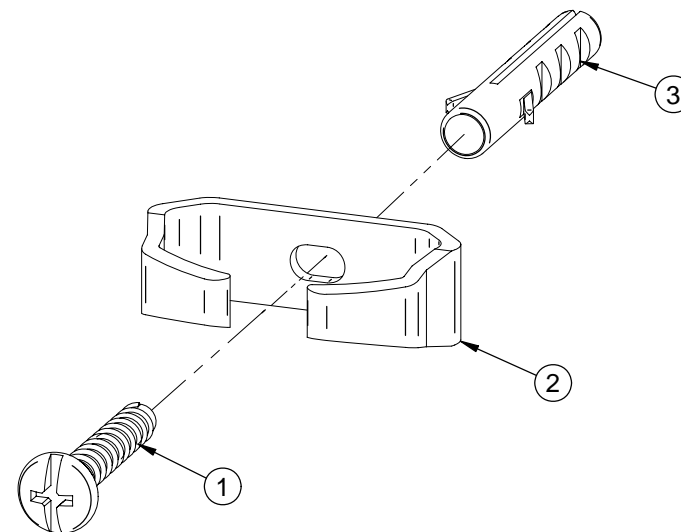

Push cables through the gap in the front of the wall clips so they are retained. Use the cable ties to help group the cables at points inbetween the wall clips. Trim off excess.

Finally push on the cable cover so that it clips into place. If cables enter or exit through a hole in the wall, you may push-in one or both of the plastic end caps.

Must be used with BT7070 cable management system.

## PARTS LIST

REF	PART NAME	QTY
1	M4.1 X 32mm WOOD SCREW	3
2	WALL MOUNTING CLIP	3
3	No. 6 WALL PLUG	3
