

Blown-Fuse Indicating Panel Mount Type For 3AG Fuses

Approvals: Recognized under the Components Program of Underwriters Laboratories and Certified by CSA.

Specifications. Electrical: Rated at 20 amperes at lamp voltage as shown below. Dielectric withstanding voltage exceeds 1500 volts. All fuseholders are supplied with a resistor. When designing indicating type fuseholders into a circuit, consideration should be given to the resistance of fractional amperage fuses and the parallel resistance of the indicator lamp and its resistor. **Mounting:** Withstands 15 lb.-in. mounting torque. Maximum panel thickness is 0.250". **Molded Parts:** Black thermoplastic (UL 94V0), except lens is thermoplastic (UL 94V2). See Table below for lens color. **Knob:** Bayonet style. **Terminals:** Copper and copper alloy. Tin-plated. **Ambient Temperature:** -40°C to +85°C. **Hardware:** Neoprene washer, lockwasher and hex nut unassembled.

*Sold in multiples of 10 only. †Suitable for current up to 10 amps.

International Shock-Safe Fuseholders

Shock-safe design per IEC Standards 65 and 127. Universal fuseholder body accepts 3AG, 5 x 20 mm, and 2AG fuse sizes depending on knob selected. Choice of three terminal styles — dual purpose 3/16" solder/quick-connect, 3/16" NEMA quick-connect, and ¼" NEMA/DIN quick-connect. UL recognized, CSA certified, VDE approved and SEMKO approved.

Omni-Block™ Fuse Mountings

One piece self-aligning fuse clip/terminal design. Breakaway poles for easier stocking and ordering. Protective pole barriers surround each clip to provide greater protection against clip damage and electrical shock. Low profile design. UL recognized and CSA certified at 300 V. Molded of glass reinforced thermoplastic. UL 94V0 flammability rating. **Clip/Terminal:** High tensile spring brass, electro-tin plated. Standard gray color.

*Sold only in multiples of 5.

The 2AG fuse provides the same performance characteristics as the universal standard 3AG design in less than one-third the space.

These subminiature fuses offer top quality, reliability, and space-saving protection for your new designs. Available with pigtail leads for direct soldering or for use with #111501 mating PCB fuse clips. The 2AG Series is UL and CSA approved.
