

Standard extruded heatsinks / **SK 454** ⚠

21,45 x 19 mm, for pcb mounting SK 454 ... x M3 / M3 L

**Parameters of article SK 454**

|                                  |                                                                                               |
|----------------------------------|-----------------------------------------------------------------------------------------------|
| <b>width [mm]</b>                | 21.45                                                                                         |
| <b>height [mm]</b>               | 19                                                                                            |
| <b>plate thickness [mm]</b>      | 3                                                                                             |
| <b>length on stock [mm]</b>      | 37.5 / 50 / 75 / 100 / 150 / 1,000                                                            |
| <b><math>R_{th}</math> [K/W]</b> |  4.9 - 10.1 |
| <b>drilling pattern</b>          | TO 220 / SOT 32                                                                               |
| <b>surface treatment</b>         | raw degreased aluminium / ME / black anodised                                                 |
