- 32GB (up to 30MB/s read, 22MB/s write)

SDXC

- 64GB (up to 30MB/s read, 22MB/s write)
- 128GB (up to 30MB/s read, 22MB/s write)

High-Speed, High-Capacity Storage with Video and Laptop Versatility

Designed for photo and video enthusiasts or anyone who enjoys taking photos, Lexar Platinum II SDHC™/SDXC™ UHS-I cards are high-speed, high-capacity cards for sustained rapid-fire picture-taking and full-motion video. Speed rated at Class 10, the cards leverage UHS-I technology (UHS Speed Class 1) to deliver read transfer speeds up to 200x (30MB/s)*, and are available in capacities from 8GB-128GB.

High-Speed Performance, From Start to Finish

Capture Fast-Action Photos and HD Video. Leverage the photo- and video-taking abilities of your SDHC/SDXC-enabled DSLR, point-and-shoot digital camera, or digital camcorder. With the high-capacity, high-speed performance of these cards, you can take a huge number of photos in quick succession using the "burst mode" feature of your DSLR camera, as well as fully leverage the video capabilities of your point-and-shoot digital camera. And high-speed performance also means that when you're back home, you'll be able to transfer your files from card to computer faster.

Quickly Transfer and Store Files on Your Laptop. The higher-capacity options also provide a convenient solution for significantly expanding the memory of your laptop computer. It's a great way to store and watch a large number of HD movies on the device, as well as transfer content to other devices via the card.

Performance, Reliability, and Compatibility. The Lexar team works with major camera manufacturers to ensure all Lexar memory cards are compatible with their digital cameras—from the simplest to most complex. The cards are also tested in the Lexar Quality Labs, facilities with more than 1,100 digital cameras and memory card devices, to further ensure compatibility and performance. In addition, all Lexar Platinum II cards come with a limited lifetime warranty. Whether you're shooting and storing action photos or HD video, these cards provide an excellent high-capacity, high-performance solution to your storage needs.

Lexar offers a comprehensive line of innovative, award-winning memory products in several categories, including memory cards, card readers, and USB flash drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Lexar. When Memory Matters.™

Lexar Platinum II cards are sold in Europe as Lexar Premium Series cards. Limited lifetime warranty is limited to 10 years from purchase in Germany.

*Up to 30MB/s read transfer, write speeds lower. Speeds based on internal testing. x=150KB/s.

Some of the listed storage capacity is used for formatting and other purposes and is not available for data storage. 1GB equals 1 billion bytes. For more information, go to www.lexar.com/capacity.
