HALL HANDIBURR

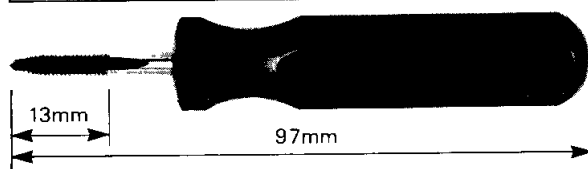

RETHREADERS

For cleaning out malformed or obstructed threads in electrical boxes.

Thread sizes available: M3.5, M4.0

- ★ Permanently fitted handle saves the cost and inconvenience of separate tapwrench.
- ★ Easy to use if box is close to a floor or corner
- ★ Quality High Speed Steel Ground Threads for longer life and ease of cutting
- ★ Ground lead on thread gives easy start
- ★ Not as easily lost as small individual taps
- ★ Handle marked with thread size

Rethreaders are part of the Hall 'Handiburr' range which also includes:

Chamferbits 12 4mm, 25mm

Pipe Reamer 10-34mm

Taper Reamers 3-12mm, 10-25mm

3 Flute 90° Head for chamfering or deburring
