The image features several E-A-R Soft earplugs and their associated cords. There are two main types of earplugs: yellow foam earplugs and red and yellow dual-layer earplugs. The yellow foam earplugs are shown in various orientations, some individually and some attached to cords. The red and yellow dual-layer earplugs are also shown, some individually and some attached to cords. The cords are blue and red, with some coiled and others straight. The background is white.

E·A·Rsoft

A Softer Side To Hearing Protection

Trust E·A·R to come up with a

Smooth, Tapered & High Protection

Designed to provide the ultimate in comfort and protection, E·A·Rsoft is the latest innovation from E·A·R. As always we have strived to meet the varied needs of people working in noise hazardous environments. This soft, tapered plug will overcome any fears you or your workers have with fitting hearing protection.

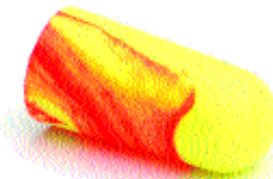

Softer, More Comfortable Seal

E·A·Rsoft is made from a slow-expanding, environmentally friendly, polyurethane foam material. We have successfully developed a plug that gives an even distributed pressure, giving flexibility, a good seal and optimum comfort.

softer side to hearing protection

Available with or without cord

E-A-Rsoft Yellow Neons and Yellow Neon Blasts are now available with a cord. The E-A-Rsoft Yellow Neons comes with a blue vinyl connecting cord, ideal for use in food manufacture and process industries.

High Levels Of Protection (SNR 36)

E-A-Rsoft plugs have the same high level of protection (SNR 36) and the attributes discussed earlier help to achieve this. Don't take our word for it though - try them for yourself.

Frequency (Hz)	125	250	500	1000	2000	3150	4000	6300	8000
Mean Attenuation (dB)	30.8	36.1	39.2	39.5	35.8	42.2	42.1	46.1	46.1
Standard Deviation (dB)	6.5	6.7	4.7	3.9	4.9	4.2	3.1	4.4	3.3
Assumed Protection (dB)	24.3	29.4	34.5	35.6	30.9	38.0	39.0	41.7	42.8

SNR = 36; H = 34; M = 34; L = 31;

E-A-Rsoft offers the highest protection you can get from a plug combined with the added advantage of ultimate comfort.
