

RHINO™ LABELS

LABELS THAT STICK AND LAST

A portable label printer is only as good as the labels on which it prints. That's why DYMO has designed a series of labels for almost any type of application on a wide variety of surfaces. Designed to work with the RHINO series of portable label printers, these labels stick and stay stuck.

FLEXIBLE NYLON

The principal application for RHINO labels is wire and cable wrapping. The flexible nylon labels are made of memory-resistant materials, making them ideal for wrapping around curved surfaces such as wires and cables, and the adhesive will stick and stay stuck for the lifetime of the cable.

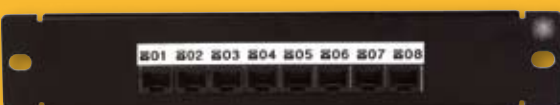

HEAT SHRINK TUBES

Looking for a non-adhesive yet permanent solution to identify and protect your wire and cables at the same time? DYMO's heat shrink 1:3 polyolefin tubes provide clean and permanent marking for a wide range of cable diameters. These sleeves are applied before connection and can be permanently positioned after connection when shrunk with a heat-gun.

PERMANENT POLYESTER

This permanent polyester material stands up to the most demanding uses in industrial environments. Designed for application to extremely rough surfaces where increased adhesion and resistance to dirt and oils are required. Ideal for patch panels, racks, enclosures, factory equipment and much more.

CLEAR POLYESTER

Clear polyester offers an aesthetic way of labelling applications. The clear labels with the sharply printed black characters integrate very well into the structure and background of the application. Any text looks as if it was printed directly onto the surface.

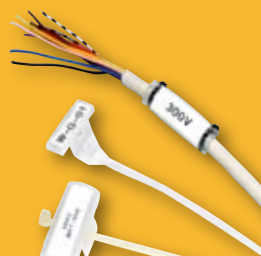

COLOURED VINYL

Coloured vinyl labels are a perfect solution if you want your identification to be clearly understood. The strong adhesive and flexible material makes this vinyl tape ideal for many labelling applications such as warning and safety instructions on machines and equipment, wires and cables, etc.

NON-ADHESIVE TAGS (INSERTS)

This non-adhesive polypropylene solution is tear-proof and offers a flexible way of providing high-quality on-the-spot labelling. You can cut the insert to the size you need that fits with any label holder. The label can easily be removed and replaced.

RHINO LABELS

Easy-peel split-back label

LABELS THAT STICK AND LAST

- Easy to peel, split-back labels.
- Permanent adhesive means labels stick and last in heavy duty environments.
- Thermal transfer print technology is durable, smear-proof, and resistant to chemicals and solvents.

FLEXIBLE NYLON - CURVED OR FLAT SURFACES. WIRES & CABLES, PATCH PANELS, MACHINERY, EQUIPMENT, BINS, ETC (L=3,5m)

DYMO Code	Sanford Code	RHINO Product	Colour
18758	S0718100	12 mm flexible nylon tape	white
18759	S0718120	19 mm flexible nylon tape	white
18756	S0718080	12 mm flexible nylon tape	yellow
18757	S0718090	19 mm flexible nylon tape	yellow

HEAT SHRINK TUBE - WIRE AND CABLE (L=1,5m)

DYMO Code	Sanford Code	RHINO Product	Cable Diameter	Colour
18051	S0718260	6 mm heat shrink tube	Min 1,18 mm Max 2,33mm	white
18053	S0718280	9 mm heat shrink tube	Min 1,73 mm Max 3,73mm	white
18055	S0718300	12 mm heat shrink tube	Min 2,97 mm Max 5,13mm	white
18057	S0718330	19 mm heat shrink tube	Min 4,64 mm Max 8,70mm	white
18052	S0718270	6 mm heat shrink tube	Min 1,18 mm Max 2,33mm	yellow
18054	S0718290	9 mm heat shrink tube	Min 1,73 mm Max 3,73mm	yellow
18056	S0718310	12 mm heat shrink tube	Min 2,97 mm Max 5,13mm	yellow
18058	S0718340	19 mm heat shrink tube	Min 4,64 mm Max 8,70mm	yellow

PERMANENT POLYESTER - FLAT SURFACES. EQUIPMENT, BINS, PATCH PANELS, ETC (L=5,5m)

DYMO Code	Sanford Code	RHINO Product	Colour
18766	S0718240	9 mm permanent polyester tape	white
18764	S0718210	12 mm permanent polyester tape	white
18765	S0718220	19 mm permanent polyester tape	white
18760	S0718170	9 mm permanent polyester tape	metallized
18761	S0718180	12 mm permanent polyester tape	metallized
18762	S0718200	19 mm permanent polyester tape	metallized
18508	S0718160	9 mm clear polyester tape	clear

VINYL - ALL SURFACES. IDEAL FOR OUTDOOR AND COLOUR-CODING APPLICATIONS. WARNING MESSAGES, WIRES, PATCH PANELS, EQUIPMENT, MACHINERY, ETC (L=5,5m)

DYMO Code	Sanford Code	RHINO Product	Colour
18431	S0718440	9 mm coloured vinyl tape	yellow
18432	S0718450	12 mm coloured vinyl tape	yellow
18433	S0718470	19 mm coloured vinyl tape	yellow
18434	S0718480	9 mm coloured vinyl tape	orange
18435	S0718490	12 mm coloured vinyl tape	orange
