

INTRODUCING EPITOME® ROCKS™

GC Electronics adds Garden Rock speakers to the *Epitome*® line.

Epitome® Rocks™ are high fidelity speakers designed with high strength corrosion resistant fiberglass enclosures that simulate natural rocks. Each enclosure is waterproof and silicone sealed to provide years of listening enjoyment, regardless of weather conditions. Offered in seven models, they are perfect compliments to gardens, patios, pools, spas and walkways. They are also ideal for background music and public address systems at Hotels, Theme Parks, Civic Centres and Golf Courses. For individuality, the **30-3551** and **30-3552** can be used in pairs, as can the **30-3553**, **30-3554** and **30-3555**. The **30-3550** and **30-3556** should only be paired with themselves. **30-3550**, **30-3551**, **30-3552**, **30-3554** and **30-3556** are "Forward Firing". **30-3553** and **30-3554** are "Omni-Directional".
