accessories

double socket

CAT NO. AZ0010

The Electrak unswitched twin socket is an alternative to conventional socket outlets where non standard applications are beneficial such as computer integrity, electronic equipment or just for the safety of the unique simple twist action double shutter access. (For use with AP13 WH Plug).

key plug

CAT NO. AP13 WH

Easy to wire 'Key Plugs' simply twist into the double shuttered safety sockets and are fitted with standard 13 amp BS 1362 fuses.

(BS 1362 Fuses less than 13amp may be fitted by the user to suit the recommended fuse size for each appliance).

electronic point of sale

CAT NO. ES6000

A unique unswitched Twin Socket Outlet. The Key Plugs are non-interchangeable with other socket outlets which stops unauthorised use of equipment. Moulded in red polycarbonate. (For use with EP2000 plug).

uninterruptible power supply

CAT NO. UPS600

A unique unswitched Twin Socket Outlet. The Key Plugs are non-interchangeable with other socket outlets which stops unauthorised use of equipment. Moulded in blue polycarbonate. (For use with UPS200 plug).

Plugs and socket outlets are manufactured from high quality materials.
