

Features

LED Driver

- Low Profile Case (13mm height max.)
- 12V and 24V Constant Voltage Outputs
- Terminal Block Input/Output with Cable Clamps
- Fully Protected (OLP, SCP, OCP, OTP)
- Suitable for Class I and Class II Luminaires
- low cost

Description

These low profile constant voltage LED drivers have been designed for cost-sensitive applications. The SELV outputs are suitable for both independently supplied or built-in power-supply LED luminaires. Their low profile design allows them to be invisibly built into furniture, discreetly mounted under shelves or integrated in space-restricted applications such as coving lighting, strip lighting or troffer lighting systems. The power supplies are short circuit and overload protected and come with a full 3-year warranty.

Selection Guide

| Part Number | nom. Input Voltage [VAC] | Input Current [mA] | Output Voltage [VDC] | Output Current Range [mA] | Efficiency typ. [%] | Output Power max. [W] |
|--------------|--------------------------|--------------------|----------------------|---------------------------|---------------------|-----------------------|
| RACV20-12-LP | 230 | 210 | 12 | 0-1670 | 82 | 20W |
| RACV20-24-LP | 230 | 210 | 24 | 0-830 | 84 | 20W |

All LED Drivers may not be used without a load. They must be switched on the primary side only.

Noncompliance may damage the LED or reduce its lifetime.
