

TL-156 Key Switch

■Characteristic

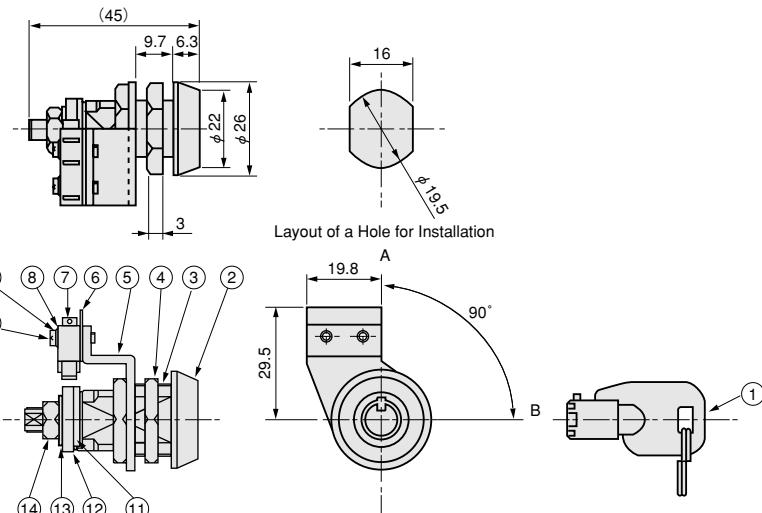

Master key is included so that key management is easy.

■Application

Measuring instruments /
Office automation appliances

Custom Made Product

Key switches of 1,000 different key No at maximum can be made open and close with one master key. The figure shows for 1-point take off key switch, at point A, with turning angle of 90-degree between point A and B, and with one microswitch. Please consult with us about other specification products. Properties and its contact form of microswitch are the same with TL-155.
