

Wiha. Premium Tools
for Professionals.

Wiha 6 mm Reversible Blade Programme. The Universal Reversible Blade System.

Wiha 6 mm Reversible Blade Programme: The Universal System.

Due to the clever reversible concept,
all 6 mm reversible blades fit into the
four handles. This gives you maximum
combination possibilities.

Simply select a handle to match your application:

- A **SoftFinish®** handle
For dry and general applications.
- A telescopic **Dynamic** handle
For wet and oily applications.
- An **ESD Dynamic** handle
For working on ESD sensitive parts
and assemblies.
- The versatile **Topra Ratchet**
The all-round tool.
Blade retainer, ratchet and bit holder in one.

Handles for 6 mm Reversible Blades.

281 Wiha SoftFinish® Handle.

Handle: Ergonomic multi-component handle with roll-off protection.
With hex bolster for additional torque.
For all 6 mm reversible blades.

Application: Especially for dry and general applications.
