

AML51 Series

Buttons/Lens for Switches and Indicators

DESCRIPTION

Honeywell's AML51 Series buttons/lens for switches and indicators have an attractive appearance and are easy to install. They are designed to achieve the best balance of human factors and aesthetic appearance. With the operator height and the

compatibility of square and rectangular shapes, there's no visual clutter to distract from man/machine communication. Colors are bright and uniform, providing a strong definition and good visibility.

FEATURES

- Constructed from polycarbonate for ruggedness and durability
- Square and rectangle shaped buttons and lenses offered
- Display types with and without legend include transmitted color, dead front, and projected color
- Variety of colors (both lit and unlit), including red, yellow, green, blue, white, black, gray and amber

POTENTIAL APPLICATIONS

Manual operations, including control boards and panels in

- Industrial and test equipment
- Computer mainframes and peripherals
- Process control
- Medical instrumentation

AML51 Series

PRODUCT NOMENCLATURE – Pushbutton

For Incandescent or non-lighted display switches and pushbutton style indicators.

For example, a **AML51-C10R** part number defines a full-color, red, square AML51 Series Pushbutton, with transmitted color and no legend.

AML51	C	10	R	-
Product Series	Pushbutton Style ¹	Display Legend/Type	Full Color or 1st Color Split	2nd Color Split
AML51	Switches and Indicators			
	Indicators only ²			
		Transmitted Color		
		Dead Front		
		Transmitted Color		
		Projected Color****		

C	F	G	D	10	No legend	30	No legend	R	Red		None
A	H	N*		20	With legend on cap	40	With legend on insert	Y	Yellow	R	Red
B*	E*	M*			Transmitted Color		Projected Color****	G	Green	Y	Yellow
R*					<i>Clear cap and color insert</i>	11	No legend	B	Blue	G	Green
					<i>Smoky gray cap and color insert</i>	21	With legend on insert	W****	White	B	Blue
								K***	Black	W****	White
								L***	Gray	K***	Black
								A**	Amber	L***	Gray
										A**	Amber

¹ For Incandescent or non-lighted display switches and pushbutton style indicators.
² For use with AML41D indicators only.
 *Available with transmitted color (10 or 20) only.
 **Available with transmitted color and dead front only.
 ***Black and gray not recommended for lighted display.
 ****Insert is clear for projected color when "W" is used.

PRODUCT NOMENCLATURE – Lens

For incandescent display AML41J, K, and L lens style indicators only.

For example, a **AML51-J10R** part number defines a full-color, red, rectangular AML51 Series Lens, with transmitted color and no legend.

AML51	J	10	R	-	-
Product Series	Lens Style ¹	Display Legend/Type	Full Color or 1st Color Split	2nd Color Split	3rd Color Split
