

PZD-3

The PZD-3 is a precision, ratchet crimp tool designed to provide consistent and reliable crimp connections on endsplices/ferrules on wires ranging from .

Easy to use

Open the tool. Insert terminal and wire in die nest from front. Close tool until ratchet release. Attention: To release ratchet mechanism, push the trigger forward when holding handles.

Calibration

To calibrate this tool the pre-load has to be measured. Gauge is required to ensure that the die is according to specification. For more information; See instruction sheet.

- Self adjusting tool with single die to crimp all terminals within its range.
- Front entry for easy access within confined spaces.
- Compact, pocketable design.
- Bi-moulded comfort handles for improved handgrip.
- Ratchet action to ensure full crimp cycle with safety release.
- Tool is factory set with a precise eccentric cam adjustment function to guarantee performance.
