

# Folding Utility Knife - WKFQ4REU

The Wiss® Folding Utility Knife... designed with features that make every cutting job easier. With its handy features and durable construction, the Wiss® WKFQ4REU Folding Utility Knife makes every cutting job easier. Its folding design lets the blade recess completely into the handle for safe storage when not in use, while its rust-proof steel construction will keep it looking new for years.

A unique interchangeable design for the belt clip and thumb pin lets you choose right or left-hand use. Also, a patent-pending quick-change mechanism reduces chance of injury with simple thumb release for easy blade removal and replacement.

The Wiss® WKFQ4REU...the future of folding utility knives.

**Blade change-out is easy.  
No tools required!**

To remove used blade

With blade open fully, pull spring-loaded retaining latch back with thumb and remove used blade.

To install new blade

With retaining latch pulled back, fully insert new blade. Release retaining latch. New blade is now locked into position and ready to use.

To configure for left-hand use

Using a 4 mm hex wrench, remove the belt clip fastener and switch it to the opposite side. Change the position of the thumb pin to the opposite side as well, using a 2.5 mm hex wrench.
