

“Micro Plunger Clips”, Mini-Plunger Clip and Plunger Clip

Type BU-1010 test leads make difficult IC connections fast and easy. Spring-loaded beryllium copper conductor attaches to component leads and terminals. Type BU-1031 test clip to insulated mini-alligator clip. Type BU-1080 test clip to 0.025" (0.635) square pin receptacle. Type BU-111, mini-plunger clip.

Insulated Test Accessories

BU-4061-M-39/BU-4061-N-39
Shielded Banana Plug to Safety
Test Prod — Silicone or PVC

Instrument end features a nine-leaf cage spring 4 mm shielded banana plug. Probe end has a stainless steel tip with 8-32 UNC thread to accept accessories such as BU-60T80, BU-209, BU-225 or BU-226. Molded housing.

Kit 400008 Meter Mate™ M General Purpose Kit

Kit 400008 includes a carrying case (instrument mountable). Insulated test lead prod-to-banana (1 red, 1 black 1000 V). Insulated plunger-hook, (1 red, 1 black, 1000 V). Insulated banana jack to standard plug, (1 red, 1 black, 1000 V). Mueller's most popular threaded alligator clip with insulators (1 red, 1 black).

860-0265. Kit 400008. EACH 60.81

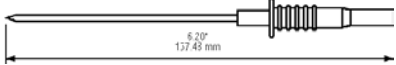

BU-26101 Insulated Plug-On Test Prod
with Stainless Steel Tip

Accepts 4 mm insulated banana plugs. Positive contact up to 1000 V is provided by the high quality 0.08" (2 mm) stainless steel test point. The insulated body reduces risk of contact with voltage carrying parts with a tough safety shock guard collar. The collar is flat on one side to prevent rolling. Mech. Connection: 0.16" (4 mm) nickel-plated brass banana jack.

BU-26130 Ultra Tech Test Prod

Accepts both safety and uninsulated 4 mm banana plugs. The high quality polished stainless steel prod tip easily pierces lacquered and oxidized contact points up to 1000 V. Insulated body with safety shock guard collar reduces the risk of contact with voltage carrying parts. The slim-line prod design with clear Kynar® insulated sleeve allows for easy testing in confined areas. Mech. Connection: 0.16" (4 mm) nickel-plated brass banana jack.

BU-20434 Right Angle Insulated
Plunger Jaw Clip — 1000 V, 15 Amp

Powerful jaws hold thick wire and cable, ground leads and rails, even screw heads, securely to make work easier, more accurate. Depress the plunger and the steel jaws extend 0.48" (12 mm) and open to 1" (25 mm). The right angle banana jack accepts ultra-flex leads and numerous other insulated and conventional banana plugs. The plunger body is fully insulated and the jaws are nickel-plated steel. Mech. Connections: 0.16" (4 mm) insulated right angle banana jack.

BU-2143-D-48 Variable Length Test Prods

For applications needing a thin, streamlined test prod. A variable electrode length prod permits testing on electronic components (small outline transistors, TO-92, etc.), where it is impossible to make a connection to the device with a probe that has anti-shock collars. In addition to its thin body design, the probe tip may be extended up to 2.5". The stainless steel probe is Teflon® insulated except for the working end to prevent unwanted contact with other components that may be in the way. Banana Plug: Feature nickel-silver traditional four-leaf spring to mate with 0.16" (4 mm) diameter jack. Hook-Up Wire: #18 AWG (65/36) tinned copper wire with 90°C PVC insulation, 48" long. Overall length is approximately 55". Available in black and red. Product is stocked in 48".

BU-65 Safety
Crocodile Clip —
34 Amp

Fully insulated and molded from high-strength, glass-filled nylon. Plastic shrouds completely cover metal parts. Rated to 1000 V. The hinge and spring design permits wide jaw opening and high clamp pressure from a comparatively low-profile clip. A sharp tooth in the lower jaw of the clip prevents it from falling off when in operation.

BU-20431 Right Angle
Insulated Plunger Hook
Clip — 1000 V, 3-Amp

Two tools in one, a BeCu contact hook and a probe tip with the plunger retracted. The hook extends 0.41" (10 mm) when fully depressed. The right angle lead connection accepts ultra-flex leads and numerous other insulated and conventional 0.16" (4 mm) banana plugs. The plunger body is fully insulated. Mech. Connections: 0.16" (4 mm) insulated right angle jack.

BU-20432/BU-20433 Right Angle
Insulated Plunger Clamp Clip — 1000 V, 1 Amp

Make hard-to-reach test points easily accessible with this sleek mini-plunger clamp. Depress the plunger and two wire hooks emerge and spread at the plunger tip. Reach into narrow passages with the highly flexible clip. Grip and hold solder leads, pins and wire up to 0.2" (5 mm) dia. Use the clamp when soldering, the silicon insulation resists the heat. A choice of two lengths. The plunger body is fully insulated. Mech. Connection: 0.16" (4 mm) insulated right angle banana jack.
