Connectors > MiniBridge 1.27 mm > Single Row Cable Connectors > Vertical Male Type P

The IDC male connectors are designed for cables or single strands. There are black and white versions available. Because of no formation of shades, the white version is particularly suitable for lighting applications. The cable guide ensures that attaching the cable is a simple operation.

product no. 364163

Application: Cable Connectors
 Gender: Male
 Orientation: Vertical
 Pins: 6
