

Anti-Static Freezer

1747

Rapidly evaporating liquid that super-chills isolated areas. Used as a troubleshooting aid for intermittently faulting capacitors, resistors, semiconductors, and other defective components. It also increases visibility of cold solder joints, cracks in printed circuit boards and oxidized junctions.

Diagnostic freeze spray for static sensitive assemblies

Rapidly evaporating liquid that super-chills isolated areas. Used as a troubleshooting aid for intermittently faulting capacitors, resistors, semiconductors, and other defective components. It also increases visibility of cold solder joints, cracks in printed circuit boards and oxidized junctions. Contains additive that avoids static build-up, critical when working with ESD-sensitive components.

- Avoids static build-up
- Non-flammable
- Non-ozone depleting
- Moisture free
- Zero residue
- Safe on plastics
- Chills down to -40°F (-40°C)

Product Packaging

1747-10S
Anti-Static Freezer
10 oz
12 units/case

Instructions

Can must be held in an upright position when spraying. Do not tilt can more than 40 degrees during spraying operation or shake during use. Before use, press actuator to clear valve of any liquid product. Use short burst to prevent cooling of can. Note: Do not use on photographic negatives without first clearing valve.

Chemical & Physical Properties	
Appearance	Colorless gas
Odor	Faint ethereal odor
Flash Point	none
VOC (EPA)	0%
VOC (CARB)	0%
Boiling Point	-26.2°C (-15.1°F)
Density	

Chemical Composition

CHEMICAL NAME	CAS #
1,1,1,2-Tetrafluoroethane (aerosol)	811-97-2
Methanol	67-56-1

Environmental Policy

Techspray is committed to developing products to ensure a safer and cleaner environment. We will continue to meet and sustain the regulations of all federal, state and local government agencies.

Resources

Techspray products are supported by a global sales, technical and customer services resources.
