

WIREMOLD

CableSmart™ 40N2 & 60N2 Series Nonmetallic Surface Raceway System INSTALLATION INSTRUCTIONS

Installation Instruction No.: 42138R2 – Updated July 2005

Wiremold Electrical Systems conform to and should be installed and properly grounded in compliance with requirements of the current National Electrical Code, Canadian Electrical Code, or codes administered by local authorities.

All electrical products may represent possible shock or fire hazard if improperly installed or used. Wiremold electrical products are UL listed, made for interior use only, and should be installed in conformance with current local and/or the National Electrical Code.

	Round 6 Strand Fiber	0.256	[6.5]	12	25	6	13

1. Cross-sectional area reduced due to 40N2F55 C-Box.
2. No. of conductors are reduced when using both channels for power.
3. 20% cable fill calculated to approximate reduction in cable capacity due to connectors mounted within raceway and fittings that may restrict cross-sectional area.
4. 40% cable fill is the maximum designed cable fill based on TIA/EIA 569-A.
