

## TCSD SERIES

# TIGER EYE™ IDC SOCKET CABLE

Requires -DXX

A schematic diagram of a four-bar linkage mechanism. It consists of four vertical links connected by two curved links at the top. The bottom of the vertical links is connected to a common horizontal base. The top of the vertical links is connected to the two curved links, which are also connected to each other at the top.

See EHT Section

- Ejector headers
- Locking clips
- Strain relief option

See EHT Series.
