

Inductors for Power Circuits

Wound Ferrite

CLF Series

CLF6045 Type

CLF6045

The products in this catalog will be or have been stopped production

Discontinue Issue Date	May 18, 2017
Last Purchase Order Date	Mar. 29, 2019
Last Shipment Date	Sep. 30, 2019

Please refer to our Web site about replacement information.

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using these products.

	The storage period is less than 6 months. Be sure to follow the storage conditions (Temperature: 5 to 30°C, Humidity: 10 to 75% RH or less). If the storage period elapses, the soldering of the terminal electrodes may deteriorate.
\bigcirc	Do not use or store in locations where there are conditions such as gas corrosion (salt, acid, alkali, etc.).
\supset	Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature difference between the solder temperature and chip temperature does not exceed 150°C.
\bigcirc	Soldering corrections after mounting should be within the range of the conditions determined in the specifications. If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.
\Box	When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.
\Box	Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set thermal design.
\bigcirc	Carefully lay out the coil for the circuit board design of the non-magnetic shield type. A malfunction may occur due to magnetic interference.
\bigcirc	Use a wrist band to discharge static electricity in your body through the grounding wire.
\bigcirc	Do not expose the products to magnets or magnetic fields.
\bigcirc	Do not use for a purpose outside of the contents regulated in the delivery specifications.
\supset	The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition.

The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to

If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions

(1) Aerospace/Aviation equipment

society, person or property.

- (2) Transportation equipment (cars, electric trains, ships, etc.)
- (3) Medical equipment
- (4) Power-generation control equipment

set forth in the each catalog, please contact us.

- (5) Atomic energy-related equipment
- (6) Seabed equipment
- (7) Transportation control equipment

- (8) Public information-processing equipment
- (9) Military equipment
- (10) Electric heating apparatus, burning equipment
- (11) Disaster prevention/crime prevention equipment
- (12) Safety equipment
- (13) Other applications that are not considered general-purpose applications

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.

INDUCTORS

Inductors for Power Circuits

Wound Ferrite

Product compatible with RoHS directive Compatible with lead-free solders

Overview of CLF6045 Type

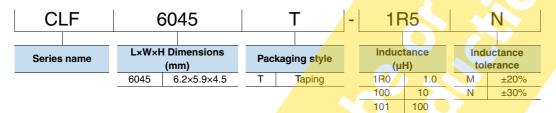

FEATURES

- Magnetic shield type wound inductor for power circuits.
- O Wide E-6 Series lineup allows for various usages.

APPLICATION

Thin-screen TVs, LCDs, AV equipment, STBs, LED lights, industrial equipment

PART NUMBER CONSTRUCTION

■ OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

	Temperat	ure range	Package quantity	Individual weight
Туре	Operating temperature*	Storage temperature**		
	(°C)	(°C)	(pieces/reel)	(g)
CLF6045	-40 to +105	-40 to +105	1000	0.6

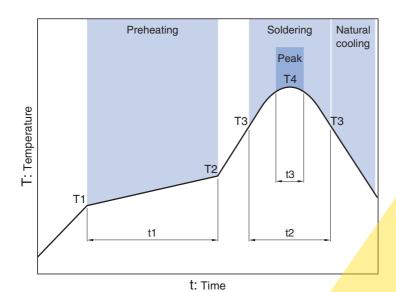

^{*} Operating temperature range includes self-temperature rise.

RoHS Directive Compliant Product: See the following for more details.https://product.tdk.com/info/en/environment/rohs/index.html

^{**} The Storage temperature range is for after the circuit board is mounted

■ RECOMMENDED REFLOW PROFILE

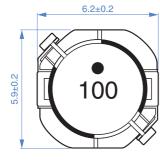

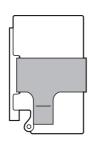

Soldering Preheating Peak Temp. Time Temp. Time Temp. Time T2 Т3 150°C 180°C 60 to 120s 230°C 250°C

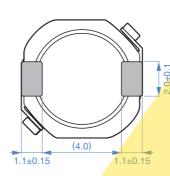

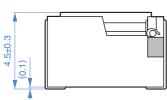

SHAPE & DIMENSIONS
