

NTD2003-2

The combination of Structofoam and stainless steel is a standard very close to our engineering hearts and this is never more obvious than in our classic NTD-2003 Industrial.

Here you have a big capacity machine; a powerful Structofoam, Twinflo' two-motored power head, giant shakeable filter system, stainless steel container and heavy-duty transit chassis. Designed to perform well and give good results - year in year out.

The standard accessory kit is 38mm (1 1/2") but by virtue of the clever multi-purpose cyclonic inlet design accessories from the 51mm (2") and 76mm (3") range can also be selected without machine variations (see Accessory catalogue).

Be it builder's rubble, a chicken house or a textile mill, the NTD-2002 will give you good, reliable service.

Motor	Power	Airflow	Suction	Capacity	Range	Weight	Dimensions
2400W	230V AC 50/60Hz	80 L/sec	2500mm	80L (Cyclonic)	26.8m	30.2Kgs	560 x 660 x 1145mm

Also available 115V/120V specification.
