

Small Flashlights

#L4 1850 LED Mini System

The Pelican L-4 is a streamlined LED precision light made of rugged Xenoy Polymer Resin. It has a brilliant 8 Lumen stream of light with an extremely long 50 hour battery burn time. It's small, its compact, with a push button tail switch. It fits comfortably in your pocket. It comes with a nice compass/thermometer and a knife, packaged in a sturdy carrying case with a molded liner.
