

# SKF SYSTEM 24 – Single point automatic lubricator LAGD 60 and LAGD 125

## Reliable, cost effective automatic single point lubricator

The LAGD series of the SKF SYSTEM 24 family are automatic gas driven single point lubricators suitable for many applications. The units are supplied ready to use straight from the box and filled with a wide range of high quality SKF lubricants. Tool-free activation and time-setting allows easy and accurate adjustment of lubrication flow.

- A Time setting slot**  
Allows easy installation and accurate adjustment of lubrication flow
- B Gas cell**  
Generates pressure to enable lubricant dispensing
- C Easy-grip top-cover**  
Facilitates easy and quick fitting
- D Piston**  
Special piston shape helps ensure optimum emptying of lubricator
- E Lubricant container**  
Transparent lubricant container allows visual inspection of dispense rate
- F SKF Lubricant**  
Filled with a wide range of high quality SKF lubricants

- Gas driven lubricator is reliable in operation and flexible in application
- Available in two sizes: 125 ml (LAGD 125) and 60 ml (LAGD 60) to suit most bearing lubrication applications
- Compact size, permits installation in restricted areas.
- Available filled with various high quality SKF greases and oils, to suit a wide range of applications
- Flexible time setting period ranging between 1 and 12 months
- Ingress protection to IP 68 level allows the lubricator to be used in most dusty and wet environments
- Wide operating temperature range to suit many applications
- High reliability and dispense rate accuracy helps facilitate predetermined replacement date
- Dispense rate setting is a simple part of the installation process and can be temporarily deactivated
- Transparent lubricant container allows visual inspection of dispense rate
- Intrinsic safety rating: ATEX approved for zone 0
- Wide range of accessories is available
- SKF SYSTEM 24 LAGD series is fully featured in SKF DialSet 4.0
