PRD1279

- High density minimizes area required for network layout, freeing up valuable floor space
 - Curved cable management fingers support cables as they transition to the vertical pathway eliminating the need for horizontal managers
 - Individual fingers can be removed without the use of a tool for routing of large cable bundles
 - Fingers align with rack spaces simplifying cable routing
 - Slack management spools organize and manage patch cord slack allowing standardization of patch cords
 - Optional hinged doors provide easy access to vertical pathway; purchased separately from manager
 - Available in 6.5', 7' and 8' versions
- All product color is black.
