

# Hi-Q® High RF Power MLC Surface Mount Capacitors

For 600V to 7200V Applications

## PRODUCT OFFERING

Hi-Q®, high RF power, surface mount MLC capacitors from AVX Corporation are characterized with ultra-low ESR and dissipation factor at high frequencies. They are designed to handle high power and high voltage levels for applications in RF power amplifiers, inductive heating, high magnetic field environments (MRI coils), medical and industrial electronics.

## HOW TO ORDER

| HQCC             | A              | A                              | 271                                                                           | J                            | A                 | T                                     | 1A                |
