EMC1412 Dual Temperature Sensor Evaluation Board

Part Number: ADM00491

Devices Supported:
EMC1412

Summary Description:
The EMC1412 Evaluation Board provides the means to demonstrate the EMC1412 features and to view and modify registers through USB. LED indicators and test points are included to show status information and a fan driver circuit linearly drives a 5V fan to 3 different speeds based on programmable temperature limits.

This Kit Contains:
• 1x EMC1412 Dual Temperature Sensor Evaluation Board (ADM00491)
• 1x USB cable

Features:
• Windows Register Manager application allows viewing and changing register values as well as graphing temperature history
• USB communication to evaluation board
• LED indicators
• Test points available
