

#### Description

American Beauty Solder pots are constructed to endure the worst that you can throw at them. A full array of replacement items are available so that you can extend the life of your solder pot by performing routine maintenance versus purchasing a whole new unit.

American Beauty has designed the dross skimmer as an **optional** part of the solder pot. This removable dross skimmer increases operator safety through reduced risk of solder splatter and maintains solder purity and temperature better than a device that rests outside the pot on a potentially contaminated surface.

**Please Note:** *The replacement dross skimmer is made from stainless steel. Recent studies indicate that, over time, some Pb-Free solder alloys may have the capacity to dissolve stainless steel. Therefore if you choose to utilize the dross skimmer assembly in your RoHS compliant environment, we strongly recommend the periodic evaluation of this assembly for material loss and your solder alloy for possible contamination.*

#### Related Products

The following products are related (similar model but different specifications, etc.) to Model 302 featured on this page:

Model	Product Name
300	1lb General Purpose Industrial Solder Pot

#### Replacement Products

#### Applications

#### Technical Specifications

RoHS Compliant	Yes
Country of Origin	US
Package Length	6.5 in / 16.51 cm
Package Width	3.00 in / 7.62 cm
Package Height	.50 in / 1.27 cm
Shipping Weight	.10 lbs / 0.05 kg
