

## Description of the Han® X-TEC connector

### Han® X-TEC - the complete circular connector system

Han® X-TEC is a complete new circular connector system in two sizes

- Han® X-TEC 23
- Han® X-TEC 32

The brand new feature of this connector series offers quick locking of connector and receptacle. Just a 70° turn of the locking element and the system is locked save and tight.

Easy and time saving selection of your favourite connector.

One part number contains insert with housing and if required the suitable cable gland as well. The female connector includes the removable locking element.

Han® X-TEC 23 is available with crimp termination:

- |                   |                                                                                                      |
|-------------------|------------------------------------------------------------------------------------------------------|
| Power connector:  | <ul style="list-style-type: none"> <li>• 3 power contacts plus 5 signal contacts</li> </ul>          |
| Signal connector: | <ul style="list-style-type: none"> <li>• 12 signal contacts</li> <li>• 17 signal contacts</li> </ul> |

Han® X-TEC 32 is available with crimp termination:

- |                  |                                                                                                                                                |

| Power Connector: | <ul style="list-style-type: none"> <li>• 3 power contacts plus 5 signal contacts</li> <li>• 6 power contacts plus 4 signal contacts</li> </ul> |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------|

### Assembly details

## Features

- Available in metal and plastic housings
- Fast locking system saves time and ensures tight connection
- Easy to operate
- Power and signal connectors suit for Servo and Three-phase drives
- Standardized system cable solutions reduce assembling time and costs
- Power and signal contacts combined in one connector
- Reliable crimp termination

## Technical characteristics

## Features

- Available in metal and plastic housings
- Fast locking system saves time and ensures tight connection
- Easy to operate
- Power and signal connectors suit for Servo and Three-phase drives
- Standardized system cable solutions reduce assembling time and costs
- Reliable crimp termination

## Technical characteristics

Specifications DIN EN 60 664-1  
DIN EN 61 984

### Inserts

Material Polyamide

Limiting temperatures -20 °C ... +125 °C

Flammability accd. to UL 94 V 0

Mechanical working life ≥ 500 mating cycles

### Contacts

Pin diameter 2 mm

Material Copper alloy

Surface hard-gold plated

Contact resistance ≤ 5 mΩ

Crimp terminal

## Features

- Available in metal and plastic housings
- Fast locking system saves time and ensures tight connection
- Easy to operate
- Power and signal connectors suit for Servo and Three-phase drives
- Standardized system cable solutions reduce assembling time and costs
- Power and signal contacts combined in one connector
- Reliable crimp termination

## Technical characteristics

\* cable entry for flexible conduits

## Features

- Available in metal and plastic housings
- Fast locking system saves time and ensures tight connection
- Easy to operate
- Power and signal connectors suit for Servo and Three-phase drives
- Standardized system cable solutions reduce assembling time and costs
- Power and signal contacts combined in one connector
- Reliable crimp termination

## Technical characteristics
