

EMI/RFI Shielded Environmental Sealing Boots for Toggle, Pushbutton and Rotary-Actuated Switches

DESCRIPTION:

APM HEXSEAL's proprietary shielded toggle, pushbutton and rotary-actuated switch boots:

- protect the switch mechanism from damage and/or performance degradation due to environmental contaminants such as oil, grease, water, cleaning solvents, dust and dirt.
- seal the panel cutout in which the switch is mounted ... thus protecting behind-panel components from damage due to leakage.
- provide up to 120dB of shielding effectiveness to contain spurious EMI/RFI that might be transmitted through the switch or panel cutout.

Each is fabricated from a rugged, high-tear resistant silicone rubber with an integral EMI/RFI shielding screen.

FEATURES AND BENEFITS:

- **UL & CSA-recognized** ... facilitates easier "listing" of the equipment in which they are used.
- **MIL-qualified** ... many standard models are QPL-approved under MIL-B-5423.
- **Up to 120dB of shielding effectiveness** ... to protect against spurious EMI/RFI.
- **Rugged silicone rubber material** ... resists tearing and most environmental contaminants. Won't discolor, crack or dry out.
- **Patented perimeter sealing rib** ... seals the panel cutout in which the switch is mounted.
- **Vibration-resistant mounting** ... resists switch loosening due to vibration/shock.
- **Wide operating temperature range** ... assures long-term performance in the toughest thermal environments.
- **Wide range of available colors** ... units can be molded in an array of colors to meet your needs.

TYPICAL APPLICATIONS:

- Avionics • Communications • Computer • Medical • Other EMI/RFI-sensitive applications

SPECIFICATIONS

Material: HEXSEALS: Silicone rubber conforms to ZZ-R-765 Class III, GR 50 (unless otherwise specified) with integral MONEL shielding screen. MONEL meets requirements of QQN-281 Class A.

Mounting Nut: HEXSEALS: Brass, nickel-plated

Temperature Range: HEXSEALS: -94°F to +400°F

Pressure Range: Exceeds 15 psi internal and 1500 psi external.

Operational Life: 15,000 actuations (minimum).

Shelf Life: Excess of 25 years.

Resistant to: Salt spray, sunlight, ozone, weather, fungus, and most acids and lubricating oils

Military Approvals: Most HEXSEALS are QPL-approved to MIL-B-5423. (Ask for QPL listings, or see page 5 in Catalog HEX.)

Agency Recognition: HEXSEALS are UL-listed to UL Std. 50 types 1-13, and meet CSA standards, C22.2 No. 94.

SHIELDING EFFECTIVENESS

HOW TO ORDER

Specify APM boot part number and, if necessary, the appropriate bushing adaptor part number.

Optional Threaded Bushing Adaptors

Inside (Bushing) Thread Size (Class 2B)	Outside (Boot) Thread Size (Class 2A)	APM Part Number
3/8-32	15/32-32	2500/1/5*
15/32-32	11/16-32	2500/1/7
1/2-32	11/16-32	2500/1/10
15/32-32	13/16-32	2500/1/8
1/2-24	13/16-32	2500/1/9
5/8-24	13/16-32	2500/1/11
5/8-24	7/8-32	2500/1/12
3/4-32	7/8-32	2500/1/13*
3/4-20	7/8-32	2500/1/14*

*5/32" thick.

Additional sizes, including metric, available. Please consult factory.
