features

- excellent temperature stability
- small size
- solder plated leads for excellent solderability
- SBTC models, patent pending
- low insertion loss, from 0.3 dB typical

NOTES:

- ◆ Aqueous washable.
- ⊛ When only specification for M range given, specification applies to entire frequency range.
- Denotes 75 Ohm model
- * BLUE CELL™ power splitters protected by U.S patents 5,534,830 and 5,640,132
- A. Environmental specifications and re-flow soldering information available in General Information Section.
- B. Units are non-hermetic unless otherwise noted. For details on case dimensions & finishes see "Case Styles & Outline Drawings".
- C. Prices and specifications subject to change without notice.
- 1. Absolute maximum power, voltage and current ratings:
 - 1a. Matched power rating,
 - SBTC Models 0.5 Watt
 - SBA Models 2 Watts
 - SBB, SCL Models 10 Watts
 - All other models 1 Watt
 - 1b. Internal load dissipation,
 - SBB Models 0.250 Watt
 - All other models 0.125 Watt
