

FLASH

## An essential part of your mobile gear.

Kingston's MobileLite G3 is a compact, multi-functional USB 3.0 card reader that lets you easily transfer digital data, photos, games, music and more stored on memory expansion cards between all kinds of digital devices.

Designed for use with different types of Flash memory cards, MobileLite G3 lets users carry a single device to store, transfer or read data on any USB host device while using a variety of Flash cards for mobile phones, digital cameras, Netbooks, computers, MP3 players and more.

Ideal for personal or professional use, MobileLite G3 will quickly become an essential part of your mobile gear. It's ultra-portable, plug and play and requires no external power source. It supports SD/SDHC/SDXC, microSD/SDHC/SDXC and MSPD!

MobileLite G3 has retractable covers on each side to make it compact and protect the USB connector and the Flash memory cards from damage. When in use, MobileLite G3 appears as two drive letters (i.e. E:\, F:\) and data transfer is as simple as drag and drop.

Backed by a two-year warranty and legendary Kingston® reliability, MobileLite G3 will prove to be indispensable.
