Corstat Reel Storage System

The Corstat Reel Storage System is a new flexible bench mount storage system for 7" and 15" component reels. Manufactured from Corstat Coated Corrugated fibreboard as standard, or Conductive fluted polypropylene plastic for clean room or heavy wear environments.

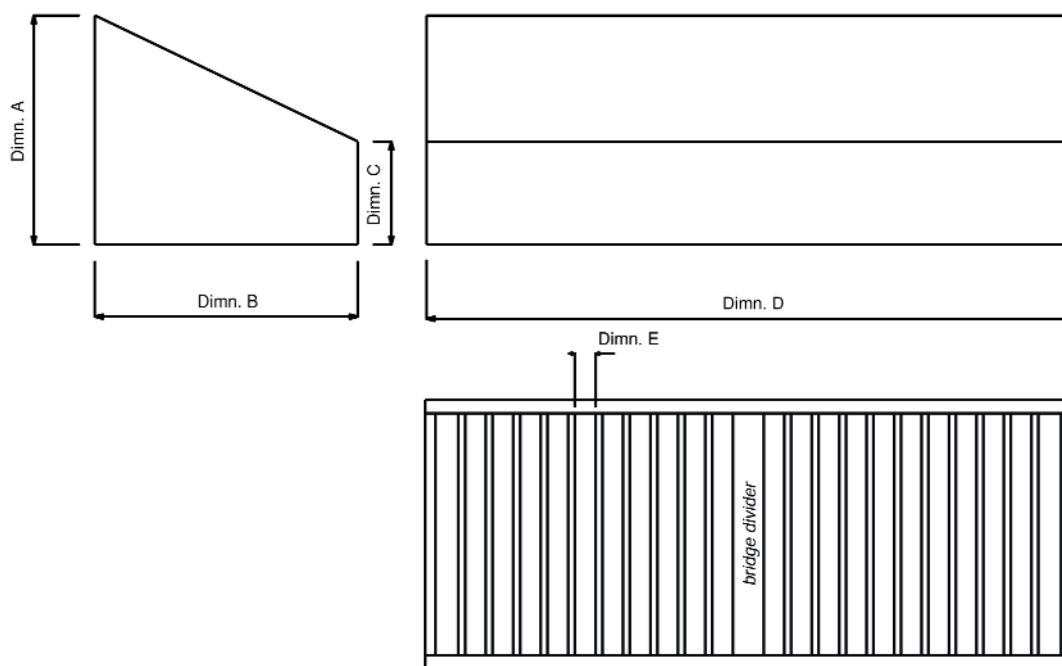

The storage system is available in single, double and triple module units and the division spacing can be 18mm or 32mm to suit the application.

The units are supplied fully assembled and configured to suit your exact requirements.
