DB2000 International

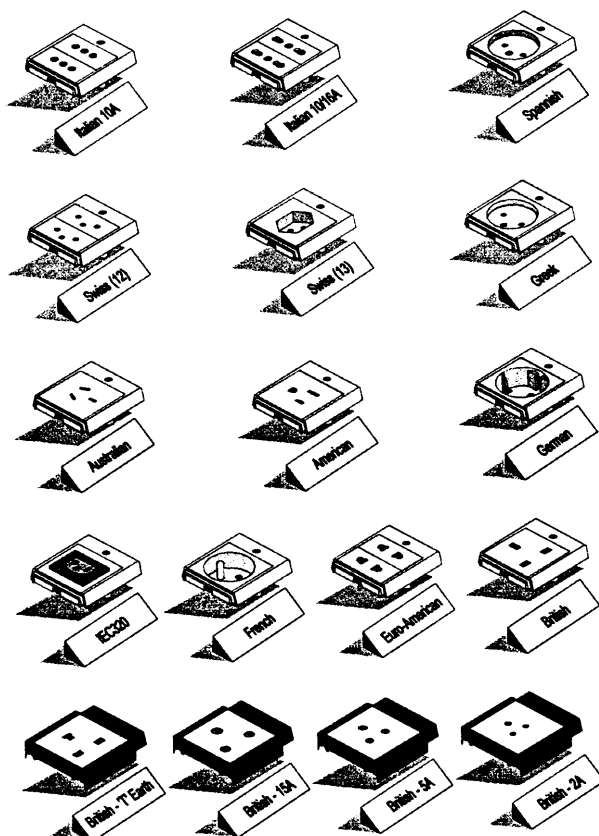

Major International socket types

Multi position ST18 locking system and shutter. Vari-clip fixing, green unit live neon indicator and recessed earth take off terminal.

The DB2000 system offers sockets for 13 different types covering all the worlds major markets. The system provides for Mains Multiple Units with any type of mains socket or combination to be used with standard interconnecting System Conditioning Units. Alternatively certain multi-function assemblies may be specified with inbuilt switches, Filter, RCD etc and the sockets of your choice.

Manufactured and tested to International standards, Aphel's DB2000 system is the ideal 'ONE STOP SHOP' solution.

- Basic IEC320 sockets

Unit type	Length (mm)	[Sockets]
2004-002-0	180	[2]
