SFP+ 10 Gb/s Direct Attach Active Cable Assemblies

- Meet SFF-8431, 8432, 8472 industry standards to support 10 Gigabit Ethernet
- Ideal for Top of Rack (ToR) and End of Row (EoR) switch to server applications
- Fibre Channel over Ethernet (FCoE) capable
- Connector contains low power circuitry to extend beyond passive cable assemblies
- Constructed with high speed, 2-pair, twinaxial cable, factory terminated to SFP+ 10Gbps hot pluggable modular connectors
- 100% performance tested
- Low profile latching mechanism in connector allows assemblies to be installed side by side or stacked on top of each other providing maximum port density in high density installations
- Robust strain relief boot provides proper bend radius control for consistent reliability
- Small diameter cable design enables superior cable management and improved air flow
- Available in 3, 5, 7 to 15 meters (one meter increments) for design flexibility
- Available in a variety of colors (black, blue, white) for easy identifications of multiple networks and fabrics
