## REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

### SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using these products.

#### REMINDERS

- The storage period is less than 12 months. Be sure to follow the storage conditions (Temperature: 5 to 40°C, Humidity: 10 to 75% RH or less).

If the storage period elapses, the soldering of the terminal electrodes may deteriorate.

- Do not use or store in locations where there are conditions such as gas corrosion (salt, acid, alkali, etc.).

- Before soldering, be sure to preheat components.

The preheating temperature should be set so that the temperature difference between the solder temperature and chip temperature does not exceed 150°C.

- Soldering corrections after mounting should be within the range of the conditions determined in the specifications.

If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.

- When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.

- Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set thermal design.

- Carefully lay out the coil for the circuit board design of the non-magnetic shield type.

A malfunction may occur due to magnetic interference.

- Use a wrist band to discharge static electricity in your body through the grounding wire.

- Do not expose the products to magnets or magnetic fields.

- Do not use for a purpose outside of the contents regulated in the delivery specifications.

- The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition.

The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society, person or property.

If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us.

- (1) Aerospace/Aviation equipment
- (2) Transportation equipment (cars, electric trains, ships, etc.)
- (3) Medical equipment
- (4) Power-generation control equipment
- (5) Atomic energy-related equipment
- (6) Seabed equipment
- (7) Transportation control equipment

- (8) Public information-processing equipment
- (9) Military equipment
- (10) Electric heating apparatus, burning equipment
- (11) Disaster prevention/crime prevention equipment
- (12) Safety equipment
- (13) Other applications that are not considered general-purpose applications

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.

# Inductors for power circuits

## Wound metal

Product compatible with RoHS directive  
Halogen-free  
Compatible with lead-free solders

# Overview of SPM3020-LR type

## ■ FEATURES

- Magnetic shield type wound inductor for power circuits using a metallic magnetic material.
- Low-profile product.
- Compared to ferrite wound type inductors, it is possible to achieve large current, low Rdc, and compactness.
- Low inductance variance in high-temperature environments with good DC superimposition characteristics.
- Metallic magnetic material is used, and the structure has an integrated molded coil, so hum noise is lower than with core adhesive coils.

## ■ APPLICATION

Tablet terminals, note PCs, HDDs, servers, VRMs, compact power supply modules, other

## ■ PART NUMBER CONSTRUCTION

SPM	3020	T	-	R47	M	-	LR
Series name	LxWxH Dimensions (mm max.)	Packaging style		Inductance (μH)	Inductance tolerance		Internal code
	3020   3.2x3.0x2.0	T   Taping		R47   0.47	M   ±20%		
				1R5   1.5			
				2R2   2.2			

## ■ OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

Type	Temperature range		Package quantity (pieces/reel)	Individual weight (g)
	Operating temperature* (°C)	Storage temperature** (°C)		
SPM3020-LR	-40 to +125	-40 to +125	2000	0.09

\* Operating temperature range includes self-temperature rise.

\*\* The Storage temperature range is for after the circuit board is mounted.

○ RoHS Directive Compliant Product: See the following for more details.<https://product.tdk.com/info/en/environment/rohs/index.html>

○ Halogen-free: Indicates that Cl content is less than 900ppm, Br content is less than 900ppm, and that the total Cl and Br content is less than 1500ppm.

**⚠** Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use.  
Please note that the contents may change without any prior notice due to reasons such as upgrading.

## ■ ELECTRICAL CHARACTERISTICS

### □ CHARACTERISTICS SPECIFICATION TABLE

L ( $\mu$ H)	Tolerance	L measuring frequency (kHz)	DC resistance		Rated current*		Part No.
			( $m\Omega$ )max.	( $m\Omega$ )typ.	Isat (A)typ.	Itemp (A)typ.	
0.47	$\pm 20\%$	100	22.7	20.6	9.0	4.8	SPM3020T-R47M-LR
1.00	$\pm 20\%$	100	36.9	33.5	6.3	3.8	SPM3020T-1R0M-LR
1.50	$\pm 20\%$	100	55.0	50.0	4.4	3.4	SPM3020T-1R5M-LR
2.20	$\pm 20\%$	100	84.2	76.5	3.9	2.8	SPM3020T-2R2M-LR
3.3	$\pm 20\%$	100	121.0	110.0	3.5	2.2	SPM3020T-3R3M-LR
4.7	$\pm 20\%$	100	174.5	151.7	2.9	1.9	SPM3020T-4R7M-LR

\* Rated current: smaller value of either Isat or Itemp.

Isat: When based on the inductance change rate (30% below the initial value)

Itemp: When based on the temperature increase (Temperature increase of 40°C by self heating)

### ○ Measurement equipment

Measurement item	Product No.	Manufacturer
L	4284A	Keysight Technologies
DC resistance	AX-111A	ADEX
Rated current Isat	4284A+42841A+42842C	Keysight Technologies

\* Equivalent measurement equipment may be used.
