

Wiha. Premium Tools
for Professionals.

Wiha Universal Scraper. Easily Removes Sealing, Paint and Glue.

The razor sharp blade quickly removes sealing, paint and glue.

The ergonomically shaped handle and the blade changing device ensure perfect handling.

The Wiha Universal Scraper is the optimal tool to quickly and easily remove seals, paint, glue and labels from glass and metallic surfaces.

The Universal Scraper is a robust tool with an ergonomic multi-component handle. Due to the special handle shape ultimate user comfort is provided. The high quality blades have a very long life. If a blade change is necessary, it can be done quickly and easily using the unique blade changing device.

The Wiha Universal Scraper is a tool which should be present in every professional toolbox. It also makes life easier for every home worker.

Universal Scraper Advantages:

- Removes quickly seals, paint, glue and labels
- High-quality blades have a very long life
- Square blade geometry, ideal for corners and edges
- Unique blade changing device ensures easy blade change
- Ergonomically shaped multi-component handle for maximum user comfort
