

Pulse transformers

For LAN interface (10GBASE-T)

ALT4532H

4532 [1812 inch]*

* Dimensions Code JIS[EIA]

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

⚠ REMINDERS
storage period is less than 12 months. Be sure to follow the storage conditions (temperature: 5 to 40°C, humidity: 10 to 75% RH or s). e storage period elapses, the soldering of the terminal electrodes may deteriorate.
not use or store in locations where there are conditions such as gas corrosion (salt, acid, alkali, etc.).
ore soldering, be sure to preheat components. • preheating temperature should be set so that the temperature difference between the solder temperature and chip temperature s not exceed 150°C.
dering corrections after mounting should be within the range of the conditions determined in the specifications. verheated, a short circuit, performance deterioration, or lifespan shortening may occur.
en embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.
heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set thermalign.
efully lay out the coil for the circuit board design of the non-magnetic shield type. alfunction may occur due to magnetic interference.
a wrist band to discharge static electricity in your body through the grounding wire.
not expose the products to magnets or magnetic fields.
not use for a purpose outside of the contents regulated in the delivery specifications.
products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition. Products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or qualequire a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society,

- (1) Aerospace/aviation equipment
- (2) Transportation equipment (cars, electric trains, ships, etc.)
- (3) Medical equipment

person or property.

(4) Power-generation control equipment

set forth in the each catalog, please contact us.

- (5) Atomic energy-related equipment
- (6) Seabed equipment
- (7) Transportation control equipment

- (8) Public information-processing equipment
- (9) Military equipment
- (10) Electric heating apparatus, burning equipment
- (11) Disaster prevention/crime prevention equipment
- (12) Safety equipment
- (13) Other applications that are not considered general-purpose applications

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.

If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions

Pulse transformers

For LAN interface (10GBASE-T)

Product compatible with RoHS directive
Halogen-free
Compatible with lead-free solders

Overview of the ALT series

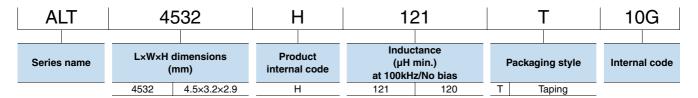

FEATURES

- The ALT series contains wound chip type pulse transformers developed for LANs.
- Ocompatible with 10GBASE-T.
- O High-quality product that uses auto winding.
- Oconforms to the RoHS directive.

APPLICATION

LAN interfaces of various devices including network devices, communication equipment, digital consumer electronics, etc.

■ PART NUMBER CONSTRUCTION

■ OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

	Temperat	ure range	Package quantity	Individual weight
Туре	Operating Storage temperature*			
	(°C)	(°C)	(pieces/reel)	(mg)
ALT4532H	-40 to +85	-40 to +85	2,000	160

^{*} Operating temperature range includes self-temperature rise.

^{**} The storage temperature range is for after the assembly.

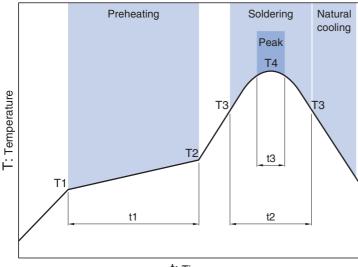

RoHS Directive Compliant Product: See the following for more details.https://product.tdk.com/info/en/environment/rohs/index.html

O Halogen-free: Indicates that CI content is less than 900ppm, Br content is less than 900ppm, and that the total CI and Br content is less than 1500ppm.

Overview of the ALT series

■ RECOMMENDED REFLOW PROFILE

t: Time

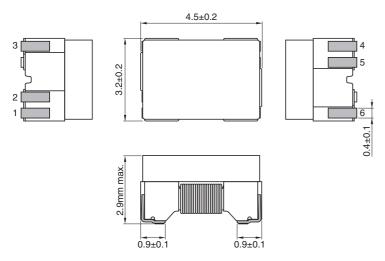

Preheatin	Preheating Soldering		Peak			
Temp.		Time	Temp.	Time	Temp.	Time
T1	T2	t1	T3	t2	T4	t3
150°C	180°C	60 to 120s	230°C	10 to 30s	245°C	5s max.
