

TAPE & REEL PACKAGING OPTIONS

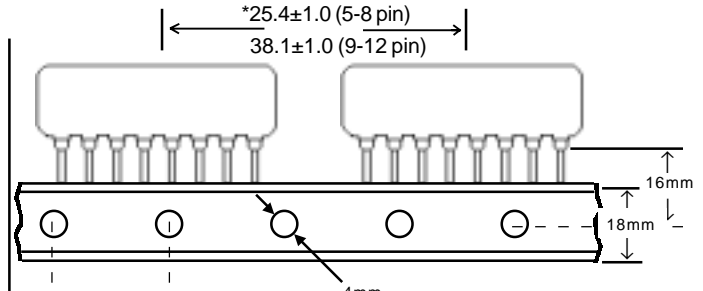

HORIZONTAL TAPING (per EIA RS296D)

RCD offers 7 standard tape spacing options, depending on body size. Please advise at the time of ordering if a specific dimension is required, otherwise we will choose one which will leave a lead length of 0.700" (17.8mm) or longer.

RCD offers an extremely wide range of taping options to meet all types of applications. Please be sure to indicate the dimensions required, and/or the equipment brand to which the taping must be compatible, when placing your order. Axial lead resistors typically have the leads trimmed prior to taping and therefore the lead length dimensions as listed in the catalog do not apply to taped items.

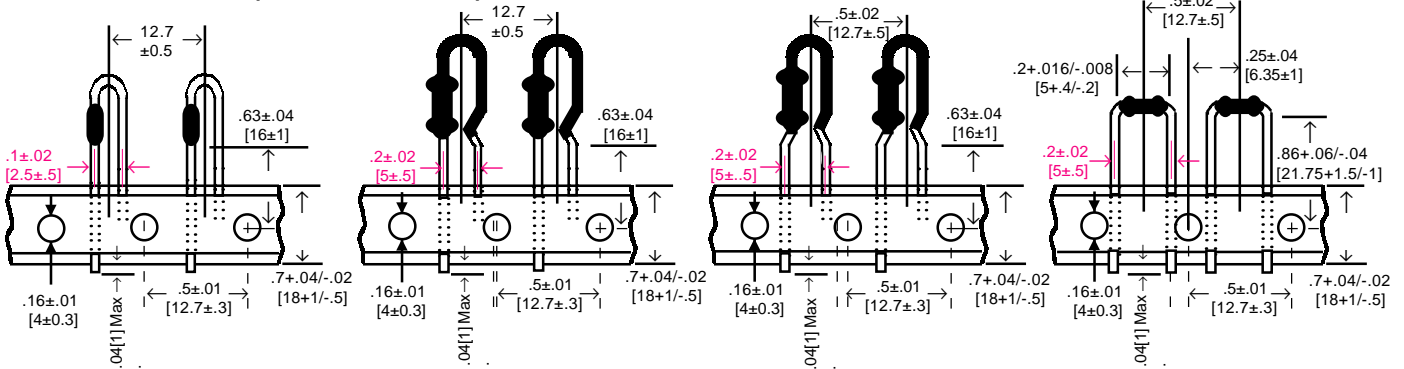

SIP NETWORK TAPING (an RCD exclusive!)

*All dimensions in mm unless otherwise specified

Note: 3 pin SIP taping also offered--consult factory

VERTICAL TAPING (1/8W, 1/4W, 1/2W)

Highest Density

(designed for 1/8W and Mini 1/4W body sizes)

Avisert

(designed for 1/4W body size)

Panasert

(designed for 1/4W and Mini 1/2W body sizes)

Horizontal Preformed

(designed for 1/8W and Mini 1/4W body sizes)

NOTE: Be sure to specify the type of taping required when placing your order.

SURFACE MOUNT TAPING (per EIA 481)

8mm Tape for use with the following Chip resistors & capacitors

Size	Series
0201	MC
0402	BLU, CE, FC, MC
0603	BLU, CE, FC, MC
0805	BLU, CE, FC, FLP, HR, MC, MCT
1206	BLU, CE, FC, FLP, HR, MC
1210	BLU, CE, FC, MC

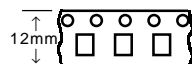

MELF resistors

MGP45, MGP50, MGP50S
MCF10, MCF12, MCF22
ZCF10, ZCF12, ZCF22

Chip inductors

CH1008, MCI1210

Surface mount networks/arrays
CN120, SMN1206

12mm Tape for use with the following Chip resistors, inductors, capacitors

Size	Series
1612	BLU
1812	CE, CI, MCI, MSI
2010	MC
2512	MC

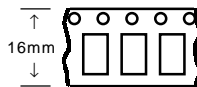

MELF resistors

MGP55, MGP55S
MCF25, MCF25S
ZCF25, ZCF25S
MBW1/4, MLP25

Surface mount networks/arrays

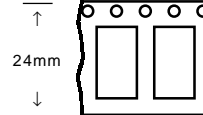

CN2012, SMN 2010, SMN2012

Surface mount wirewounds
MW1, MWM

16mm Tape for use with the following products:

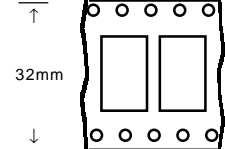

MW2	MELF resistor
SF1	VWV SM resistor
LCCN14	SM network
LCCN16	SM network

24mm Tape for use with the following products:

SMN14	SM Network
SMN16*	SM Network
SMTF16*	SM Network
LCCN20	SM Network
MWM2	VWV SM resistor
SMP1410	Delay line
SMP1610	Delay line
SMA1405	Delay line
SMA2805	Delay line
SMA2810	Delay line

*Available on 24mm or 32mm tape. Please specify preference at the time of ordering.

32mm Tape for use with the following products:

SMN16*	SM network
SMTF16*	SM network

NOTE: Tape & Reel packaging is standard for many items and therefore RCD reserves the right to supply parts on tape, even when "bulk packaging" is ordered.
