

P-Series Master Blaster

- High output 230V AC siren sound designed to deter intruders
- Choice of 12V DC or 24V AC trigger relay for both security and fire use
- Separate mounting bracket for ease of installation
- Continuously rated
- Weatherproof for both indoor and outdoor use

The Master Blaster is a powerful motor driven siren producing a very high sound output, designed for use as an internal or external security alarm.

The siren is powered by a 230V AC supply and contains an integral activation relay. It is supplied with either a 12V DC relay for security applications or 24V DC relay for fire.

Designed for surface mounting, the Master Blaster has a separate mounting bracket which may be secured into position first for easy installation. In addition, it comes pre-wired with 1 metre of cable.

It has a weatherproof construction when wall mounted and is suitable for continuous use.

The Master Blaster is ideal for security and fire applications where a higher sound output is required.

Applications

- Security alarm
