

Item # T1151AB T1100/C1100 LCD Hour Meter/Up or Down Counter

T1100/C1100 LCD Hour Meter/Up or Down Counter
ENM's new series T1100 hour meter module features a 6-digit, 7 segment LCD display. The accumulated hours or counts are stored on powerless non-volatile data backup using CMOS EEPROM technology, where small space and reliable instruments are required with memory that does not rely on a battery. Both meters are ideal for pc board design and/or maintenance applications. Hour meter module displays hour glass and decimal point.

Specifications

Voltage	4.5-28 V DC
Case	Round case
Reset	Yes
Display Digits	6-Digit
